

Citroen C3 Aircross. Your car, decoded. VF72RHNVWR4171XXX

A clean, premium overview of this exact Citroen C3 Aircross configuration: compact turbo petrol power, automatic transmission, practical family packaging and useful everyday technology.

VIN

VF72RHNVWR4171XXX

MODEL

C3 Aircross (A88)

YEAR / PERIOD

2023–2025 configuration period

ENGINE

EB2DT M 1.2turbo petrol

OUTPUT

81kW / 205 Nm

TRANSMISSION

AT6 6–speed automatic

PAINT

Blanc Banquise

INTERIOR

TEP +Brasilia mottled trim

DRIVE

Right–hand drive

EMISSION STANDARD

Euro 6.1

TOP 10

The 10 most interesting things about this C3 Aircross

01

EB2DT turbo petrol engine

The 1.2-litre direct-injection turbo engine delivers 81 kW and 205 Nm, giving this C3 Aircross a useful balance of efficiency and real-world pull.

Why it matters: It matters because small SUVs feel best when the engine has enough torque for daily traffic, overtaking and family use.

02

AT6 automatic transmission

The six-speed automatic transmission gives the car a more relaxed, easy-driving character than a manual city SUV.

Why it matters: It improves comfort in urban traffic and makes the vehicle easier to live with every day.

03

Automatic air conditioning

Automatic climate control is fitted, supported by R1234yrefrigerant and a pollen / activated-carbon filter.

Why it matters:It adds genuine ownership value because cabin comfort and air quality are noticed on every journey.

04

Visio Park 1rear panoramic camera

The vehicle has rear panoramic camera support combined with rear parking assistance.

Why it matters:This is one of the most useful features on a compact SUV, especially in tight streets and parking spaces.

05

Touchscreen with MirrorLink

A touchscreen system, USB connection, colour audio display, hands-free phone support and MirrorLink are included.

Why it matters:It keeps the cabin practical and connected without overcomplicatingthe dashboard.

06

Sliding 2/3-1/3rear bench

The rear bench can slide, fold and recline, givingthe cabin more flexibility than a fixed rear-seat layout.

Why it matters:That matters for families, luggageand everyday mixed-use driving.

07

Rain sensor and automatic lights

The car is equipped with rain-sensing front wipers and automatic lighting.

Why it matters:These small convenience systems make the car feel more modern and reduce driver workload.

08

Speed-limit recognition and lane monitoring

Speed-limit sign reading and lane departure monitoring add a useful driver-awareness layer.

Why it matters:They are valuable for longer trips and help the driver stay informed without distraction.

09

16-inchdiamond-cut alloy wheels

The 16-inchdiamond-cut alloy wheels and two-tone bumpers give this specification a more polished exterior look.

Why it matters:The car has a smarter showroom presence without sacrificing sensible tyre comfort.

10

Strong practical safety base

ABS, ESP, hill holder, tyre-pressure loss detection, multiple airbags and seat-belt warnings are included.

Why it matters:It gives this compact SUV the everyday safety foundation buyers expect in a modern family vehicle.

Standout combination: the EB2DT turbo petrol engine, AT6 automatic gearbox, flexible sliding rear bench, automatic climate control, rear camera support and clean Citroen design details make this a highly usable compact SUV specification.

CATEGORY OVERVIEW

All equipment, grouped for readability

Performance, Engine & Chassis

A compact turbocharged petrol setup with automatic transmission, Euro 6.1 compliance and a sensible chassis specification for everyday SUV use.

Powertrain Under-engine protection Battery Air-conditioning compressor
Engine balance shaft Tyre quality Tyre size and type +38 more

Safety & Driver Assistance

The equipment focuses on practical assistance: stability control, tyre-pressure monitoring, lane support, sign reading and parking help.

Driver airbag Anti-lock braking system Anti-theft wheel bolts Design variant
Child monitoring mirror Obstacle detection Additional miscellaneous badge +16 more

Comfort & Interior

A flexible family cabin with automatic climate control, sliding rear seating, useful storage and electric convenience features.

Rear seat Air conditioning Front seat armrest Boot / load-area lighting
Rear seat control Radio controls Driver-seat adjustment +50 more

Infotainment & Connectivity

Touchscreen-based media, USB support, MirrorLink and hands-free telephony keep the cabin usable for modern daily driving.

Radio connection Antenna Auxiliary connection Display Radio frequency
Hands-free system Hands-free access and start +9 more

Exterior & Design

Blanc Banquise paint, black roof rails, two-tone bumpers, tinted glass and alloy wheels create a clean Citroen-style visual identity.

Gear knob trim Rear impact protection Exterior accessories Exterior roof carrier
Roof rack Underbody protection Bumpers +12 more

Factory, Market & Misc.

Factory configuration, market details, absence entries and standard specification notes that complete the exact build picture.

Speedometer drive

Side impact mouldings

Front impact mouldings

Reverse light

Front blanking plate

Remote control

Air-conditioning pipes

+54 more

OWNERSHIP VIEW

Expert advice for this exact configuration

Respect the severe-duty maintenance schedule

This configuration is marked for severe-duty maintenance. For long-term reliability, avoid stretching service intervals, especially on a small turbocharged petrol engine.

Use correct oil and quality fuel

The EB2DT turbo engine benefits from correct-spec oil, disciplined servicing and good-quality unleaded 95 RON fuel. Neglect here can quickly affect refinement and durability.

Check automatic transmission behaviour

The AT6 should shift smoothly and predictably. Hesitation, harsh engagement or inconsistent low-speed behaviour should be investigated early.

Keep cooling and climate systems healthy

The car uses automatic air conditioning, R1234yf refrigerant and hot-climate specification details. Cooling performance, fan operation and refrigerant condition are worth checking during ownership.

Parking technology adds real value

Rear parking assistance and the Visio Park 1 rear panoramic camera make the car easier to use in dense urban areas. Keep camera lenses, sensors and wiring clean and functional.

Tyres strongly affect the driving feel

The 205/60R16 tyre size is a sensible comfort-focused setup. Good tyres and correct pressures will make a bigger difference to ride quality, steering feel and braking than many cosmetic upgrades.

COMPLETE APPENDIX

All codes, data and specification entries

Standard, market-specific and “without” entries are included for completeness, because they help define the exact factory configuration.
