

Volkswagen T-Roc. Your car, decoded. WVGZZZA1ZPV526XXX

A high-specification T-Roc configured around 2.0 TFSI performance, 7-speed DSG 4Motion, adaptive chassis control, premium lighting, strong driver assistance and a richer Volkswagen R interior feel.

Performance SUV feel

2.0 TFSI, DSG 4Motion and DCC give this T-Roc a far stronger mechanical identity than a standard compact crossover.

Premium visibility

IQ.LIGHT matrix LEDs, animated rear lights and rain/light sensing make daily driving feel more refined.

VIN WVGZZZA1ZPV526XXX	MODEL Volkswagen T-Roc BlueMotion Technology TRO	MODEL YEAR 2023	PRODUCTION DATE 24.07.2022
SALES TYPE D11RYT	ENGINE CODE DNFC	TRANSMISSION CODE VEM	AXLE DRIVE CHARACTERISTIC 7A
EQUIPMENT IC	ROOF COLOUR A1	EXTERIOR PAINT / CODE 0Q / C9A	MARKET Japan
STEERING Right-hand drive			

The 10 most interesting things about this specific T-Roc

DS4 / T3W / G1D

2.0 TFSI power with 7-speed DSG 4Motion

The 2.0-litre TFSI engine, 7-speed DSG and four-wheel-drive layout give this T-Roc a genuinely premium performance backbone. It is the kind of configuration that makes the car feel more grown-up, quicker and more secure than a basic crossover.

PDD / 2H4 / UB9

Adaptive chassis with sport-oriented damping

Adaptive Chassis Control and driving profile selection let the car change character depending on the road and the driver. This matters because it gives one vehicle both daily comfort and a more controlled, confident feel when driven with intent.

PXC / 8G4 / 8IV

IQ.LIGHT LED matrix lighting package

Matrix-beam assistance, LED headlights with variable light distribution and IQ.LIGHT branding give the front end a much more premium lighting story. Good lighting changes how a car feels at night: calmer, sharper and more expensive.

PYR / 6I6 / 7Y1

High driver assistance package

Lane Assist, Emergency Assist, traffic-jam support and lane-change assistance make this T-Roc feel technically sophisticated in daily traffic. It adds confidence on longer journeys and makes the specification much easier to sell.

8T8 / 6K4 / QK1

Adaptive cruise and camera-based safety support

Adaptive cruise control with follow-to-stop, Front Assist and a multifunction camera create a strong safety and convenience layer. These are features owners actually use, especially in dense traffic and motorway driving.

KA1 / 7X5 / 5I6

Camera, parking assistance and hands-free tailgate

The rear-view camera, parking assistance system and virtual-pedal tailgate opening make the car easier to park, load and live with. This is exactly the kind of equipment that turns a good spec into an ownership-friendly one.

C7M / PJK / H5W

19-inch Estoril wheel and tire setup

The black diamond-turned Estoril 19-inch wheel package gives the car a stronger stance without changing its core practicality. Combined with 235/40R19 tires, it gives the T-Roc a sharper and more premium visual position.

3FU / 4KF / 3S1

Panoramic roof, dark rear glass and bright roof rails

The large roof system, dark-tinted rear glass and bright roof rails create a richer exterior and cabin feel. It helps the T-Roc feel more like a lifestyle SUV than a plain hatchback on stilts.

N2R / WLS / Q4P

Leather, sport seats and Volkswagen R interior package

Leather upholstery, front sport seats and the Nappa/Carbon Style Volkswagen R package give the cabin a much more special atmosphere. This is one of the strongest emotional selling points of the vehicle.

7UG / R20 / 9WJ

Discover Pro navigation with modern connectivity

Discover Pro navigation, Streaming & Internet support and Wired & Wireless App-Connect make the infotainment package feel current. Buyers judge a car quickly by its screen and phone integration, and this setup gives the T-Roc a strong digital story.

Standout combination: 2.0 TFSI power, 7-speed DSG 4Motion, DCC adaptive chassis control, IQ.LIGHT matrix LEDs, rear camera, driver assistance high package, leather sport interior and 19-inch Estoril wheels create a T-Roc that feels deliberately configured rather than merely optional.

All codes by category

Comfort & Interior

The cabin specification is unusually strong for a compact crossover, combining leather trim, sport seating, seat heating, smart access, climate comfort and practical everyday details.

OTA 1U8 1W0 1XT 3FU 3H0 3LJ 3NU

+26 more

Exterior & Design

The exterior package leans into a mature Volkswagen R-Line/R look: 19-inch Estoril wheels, bright roof rails, LED signatures and subtle chrome details without excessive visual noise.

0A2 0KA 0NB 0P4 1J1 1NL 2JF 3S1

Factory, Market & Misc.

These codes explain how this T-Roc was configured at factory level for Japan, including market approvals, climate settings, documentation, protection and standard/without entries.

0B2 0FA 0GC 0IJ 0K0 0MU 0VR 0Y2

+41 more

Infotainment & Connectivity

The digital layer is modern and usable, with Discover Pro navigation, App-Connect, voice control, comfort telephony, Japanese radio coding and We Connect preparation.

7UG 8AR 8RL 8ZK 9S0 9WJ 9ZV EL6

+7 more

Lighting & Visibility

Lighting is a clear strength here: IQ.LIGHT LED matrix headlamps, variable light distribution, animated LED rear lights, rain/light sensing and useful all-weather functions.

8G4 8IV 8M1 8N6 8Q3 8TL 8VP 8WM

Performance & Running Gear

This specification is built around a powerful 2.0 TFSI engine, 7-speed DSG 4Motion, DCC adaptive chassis control and a capable brake and chassis setup.

0AF 0BG 0F1 0N4 1LQ 1N7 1X1 2EF

+13 more

Practicality & Ownership

Practical details such as the variable load floor, spare wheel, Easy Open tailgate, service regime and tool kit add real-world ownership value beyond brochure appeal.

1G9 1PE 1S1 3GN 5I6 8W1 9U1 PE1

+3 more

Safety & Driver Assistance

The assistance package is broad and meaningful, with adaptive cruise control, Front Assist, Lane Assist, Emergency Assist, lane-change support, PreCrash and camera-based systems.

Category logic: the categories are alphabetized and the feature list below each category uses the exact specification codes, including standard, without and market-specific entries where they affect completeness.

Advice for this exact configuration

DSG and 4Motion behaviour

The 7-speed DSG and four-wheel-drive system should feel smooth, decisive and predictable. Any low-speed shudder, delayed engagement or uneven power delivery deserves attention before it becomes an expensive drivability issue.

DCC suspension check

Because this car has Adaptive Chassis Control, test the comfort and sport settings during a drive. The system adds value only when the dampers respond cleanly and the car clearly changes character between modes.

Lighting and camera calibration

The IQ.LIGHT, multifunction camera, lane systems and parking functions rely on accurate sensors and calibration. After windscreen replacement, accident repair or suspension work, these systems should be checked carefully.

Tires matter more on this spec

With 19-inch 235/40R19 tires, the correct tire quality, alignment and pressure have a big influence on noise, ride comfort and steering feel. Cheap or mismatched tires can make a premium setup feel ordinary.

Service discipline for the 2.0 TFSI

The 2.0 TFSI rewards correct oil, good fuel and timely maintenance. LongLife service intervals are useful, but enthusiastic driving and short-trip use make proactive servicing the smarter ownership choice.

Japan-market details

This right-hand-drive Japan-market specification includes market-specific radio, documentation and type-approval items. For export or resale, confirm navigation, radio frequencies, documentation and connected services behave as expected in the destination country.

Vehicle view: this is a right-hand-drive Japan-market Volkswagen T-Roc with a performance-oriented 2.0 TFSI / DSG 4Motion drivetrain, adaptive chassis, premium LED lighting, leather sport interior, modern connectivity and several market-specific factory settings.

All codes and descriptions

Entries that indicate absence of optional equipment, standard setup or market-specific configuration are intentionally included for completeness.

CODE	DESCRIPTION	CATEGORY
COMFORT & INTERIOR		
0TA	Without floor mats	Comfort & Interior
1U8	Without folding table on front seat backrest	Comfort & Interior
1W0	Without cool box or cooled glove compartment	Comfort & Interior
1XT	Heated leather multifunction sport steering wheel with Tiptronic controls	Comfort & Interior
3FU	Large roof system / panoramic roof	Comfort & Interior
3H0	Without front-seat backrest release	Comfort & Interior
3LJ	Door and side trim in foam film with leatherette inserts	Comfort & Interior
3NU	Rear bench with split-folding backrest and centre armrest	Comfort & Interior
3PJ	Electric right seat adjustment with memory; left seat manually height-adjustable	Comfort & Interior
4A3	Heated front seats, separately adjustable	Comfort & Interior
4GF	Heat-reflecting windshield	Comfort & Interior
4I3	Keyless Entry central locking without SAFELOCK	Comfort & Interior
4KF	Heat-insulating side glass with dark tint from the B-pillar rearward	Comfort & Interior
4L6	Auto-dimming interior rear-view mirror	Comfort & Interior
