

Porsche 991 II Targa GTS. Your car, decoded.

A clean, print-friendly premium specification report built around the exact factory configuration of this **PORSCHE 991II TARGA GTS** FOR VIN **WPOBB2A93KS12XXXX**

Manual GTS core

Sport Chrono, sports exhaust, rear-axle steering and ceramic brakes give this Targa a very serious driver brief.

Exclusive finish

Leather-rich interior details, SportDesign equipment and premium lighting create a more special 991.2 build.

VIN WPOBB2A93KS12XXXX	MODEL 991II Targa GTS 991-2	MODEL YEAR 2019	PRODUCTION DATE 08.05.2019
SALES TYPE 991540	ENGINE CODE DCJ	TRANSMISSION CODE G9135	AXLE DRIVE CHARACTERISTIC 7S

EQUIPMENT NE	ROOF COLOUR 1V	EXTERIOR PAINT / CODE Jet Black Metallic / 2T / C9X	MARKET Canada / North America
STEERING Left-hand drive			

The 10 most interesting things about this specific Targa GTS

450 / 470 / 475

PCCB, rear-axle steering and PASM

This is a serious driver-focused chassis specification. Ceramic brakes, rear-axle steering and adaptive damping give the car a much sharper and more composed character than a standard open-top 911.

487 / QR5 / 140

Manual GTS with Sport Chrono Plus

A 7-speed manual paired with Sport Chrono Plus and dynamic engine mounts is a highly desirable enthusiast combination. It keeps the car mechanical, involving and more collectible in feel.

XLZ / 011 / 009

Targa 4 GTS Exclusive Edition character

The GTS model identity is strengthened by an Exclusive Edition package and a focused factory build. It gives this Targa a more special-positioned feel than a regular 991.2 Targa.

541 / 342 / 323 / 324

18-way Sport Seats Plus with ventilation

The cabin combines performance seating with real long-distance comfort. Electric 18-way Sport Seats Plus, heating and active ventilation make the car usable in more climates and seasons.

XEY / 852 / XXP

Premium LED lighting with PDLS Plus

Dynamic LED headlights, PDLS Plus high-beam support and tinted rear lamps give the car a more modern and expensive visual signature. It is one of the strongest design-and-usability upgrades.

9VJ / 7UG / I8L

High infotainment and top-tier audio

Navigation High, Premium Radio Gen. 2 and the Top Premium Sound System make the cabin feel properly specified. For a premium 911, this matters for both daily use and resale perception.

XAT / 529 / 460

SportDesign exterior presence

The SportDesign Package, SportDesign mirrors and 20-inch RS Spyder Design wheels give this Targa a more athletic showroom stance. It looks configured by someone who cared about the visual details.

625 / 607 / 638

Everyday convenience with premium usability

Porsche Entry & Drive, HomeLink and ParkAssist with reversing camera make the car easier to live with. These options are not loud, but they add daily comfort and ownership value.

981 / 983 / 998

Leather-rich interior execution

Natural leather, leather upholstery and leather-trimmed detail pieces create a cabin that feels more bespoke. The specification has the tactile depth expected from a high-end Porsche build.

113 / 553 / B35

North American / Canada market setup

The car is clearly configured for the Canada/North America environment, including regional radio and compliance details. For export or resale, this market identity is important to understand early.

Standout combination: this configuration brings together a manual GTS drivetrain, PCCB, rear-axle steering, PASM, Sport Chrono Plus, ventilated 18-way Sport Seats Plus, premium leather details and a North American market setup. It is both a highly usable open-roof 911 and a genuinely focused enthusiast specification.

All codes

Comfort & Interior

The cabin specification is unusually rich for a performance-focused 911, combining leather execution, 18-way Sport Seats Plus, ventilation, heating and useful convenience equipment. It is a driver's car, but not a stripped-out one.

022 025 171 257 276

323 324 342 +24 more

Exterior & Design

The exterior carries a strong GTS and SportDesign identity, supported by RS Spyder wheels, tinted rear lamps, body details and selective model-script deletion. The result is subtle, expensive and deliberately understated.

218 263 284 446 460

493 497 529 +6 more

Factory, Market & Misc.

These entries define the vehicle's market identity, compliance setup, production differentiation and factory coding. They matter for accurate documentation, resale, import/export checks and full specification trust.

009 011 094 098 0JZ

0SS 0YZ 11B +30 more

Infotainment & Connectivity

The infotainment specification brings together navigation, premium radio, telephone integration, Porsche connectivity preparation and high-end audio. It gives the 991.2cabin the technology depth expected from a premium modern GT car.

7G9 7UG 9VJ 9ZC EL5

GB2 I8L QH1 +2 more

Lighting & Visibility

The lighting package is a genuine strength, with dynamic LED headlights, PDLS Plus assistance, rain sensing and tinted rear lighting. This improves both night usability and the car's visual presence.

268 465 567 605 852

XEY XXP

Performance & Running Gear

This is where the configuration becomes especially compelling: manual gearbox, Sport Chrono Plus, sports exhaust, dynamic engine mounts, PASM, rear-axle steering, limited-slip differential and PCCB. It is a very serious dynamic package.

140 147 176 220 450

470 475 487 +4 more

Practicality & Ownership

The practical layer includes tire monitoring, key electrical details, sockets, floor and equipment choices, and ownership-relevant deletions. These are the details that help explain how the car will feel to live with beyond the headline options.

200

426

482

621

UX7

Safety & Driver Assistance

Safety and assistance equipment includes ParkAssist with reversing camera, advanced airbags, Lane Change Assist, alarm functions and immobilizer details. It is a performance-led car with a useful modern protection layer.

Advice for this exact configuration

PCCB inspection matters

Ceramic brakes are a major value point, but condition is everything. Check discs carefully for chips, uneven wear and prior track-style abuse before purchase or export.

Manual drivetrain feel

The 7-speed manual should feel positive, clean and consistent. Any baulking, clutch irregularity or drivetrain slack deserves attention because this is central to the car's value.

Rear-axle steering and PASM

Rear-axle steering and adaptive damping make the car feel special, but both rely on healthy sensors, actuators and alignment. A specialist suspension check is worthwhile.

GTS exhaust and engine mounts

The sports exhaust and dynamic engine mounts are part of the car's character. Listen for abnormal rattles, mount-related vibration and valve actuation issues during inspection.

North American market identity

The Canada / North America coding is important for resale, radio frequency, documentation and import compliance. Buyers should verify lighting, emissions and registration expectations in the destination market.

Leather and Exclusive details

The leather-rich interior makes the car feel premium, but condition is very visible. Inspect bolsters, stitched trim pieces, leather airbag areas and console details with care.
