

SEAT Leon.

Your car, decoded.

VSSZZZKLZMR09XXXX

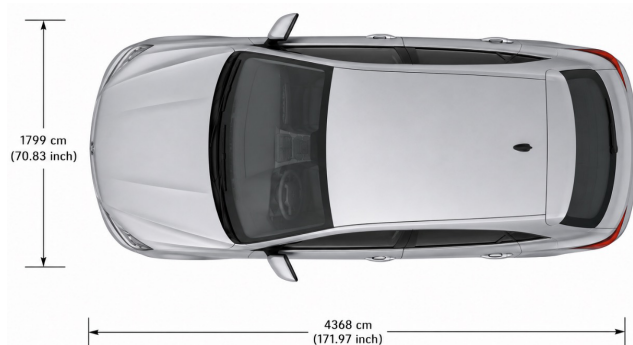

A Dutch-market SEAT Leon FR Sportstourer with 1.5TSI mild-hybrid power, 7-speed automatic transmission, adaptive chassis control, panoramic roof, Full LED lighting, BeatsAudio and a strong comfort and assistance specification.

FR mild-hybrid character

Sport-focused FR equipment combined with a refined 48V mild-hybrid TSI powertrain.

Premium daily usability

Estate practicality, keyless convenience, three-zone climate, wireless charging and advanced assistance.

THE 10 MOST INTERESTING THINGS ABOUT THIS SPECIFIC SEAT

These are the features that most strongly define the vehicle's drivetrain, FR character, comfort value, connected technology and everyday usability.

01

FR Sportstourer identity

Leon FR LESC with top sport equipment gives this car the sharper SEAT character buyers usually look for. The estate body adds real practicality without losing the athletic FR stance.

02

1.5TSI mild-hybrid drivetrain

The 110kW 1.5-litre TSI mild-hybrid engine pairs with a 48V system for smoother everyday response and improved efficiency. It is one of the most commercially attractive engine configurations for this generation.

03

7-speed automatic transmission

The G1C7-speed automatic supports relaxed commuting and polished motorway driving. It suits the mild-hybrid setup especially well in urban and mixed use.

04

Adaptive chassis control with progressive steering

The DCC and progressive steering package adds a more premium dynamic layer than a standard Leon. It allows the car to feel composed, precise and more adaptable to different roads.

05

SEAT Full LED lighting

Full LED headlamps, LED rear lamps, automatic range control and welcome lighting give the car a modern, high-value appearance. The animated rear indicators strengthen the premium visual impression.

06

Panoramic roof system

The large roof system lifts the cabin atmosphere and makes the interior feel more open. On a dark-trim FR estate, this is a particularly desirable comfort feature.

07

BeatsAudio premium sound

The branded BeatsAudio system with subwoofer, 340W amplifier and surround technology is a strong cabin upgrade. It adds everyday enjoyment and raises the perceived quality of the interior.

08

Safe & Driving Package L

Adaptive cruise with follow-to-stop, Lane Assist, lane-change support, Front Assist and traffic sign recognition create a confident long-distance package. It is a meaningful value point for family and commuter use.

09

Keyless Access and hands-free tailgate convenience

Keyless Advanced and sensor-controlled luggage compartment operation make the car easier to live with. These are practical premium details that matter every day.

10

Winter and comfort equipment

Heated front seats, a heated steering wheel, three-zone Climatronic and wireless charging make the car feel well specified for northern European ownership.

Standout combination: FR Sportstourer body, 1.5TSI mild-hybrid power, 7-speed automatic transmission, DCC with progressive steering, panoramic roof, BeatsAudio, Full LED lighting and Safe & Driving Package L create a desirable Dutch-market Leon configuration.

KEY SPECIFICATION BY CATEGORY

The strongest parts of this configuration come from the way its mild-hybrid running gear, FR design, premium cabin equipment and assistance systems work together.

Comfort & Interior

The cabin is configured as a high-grade FR interior, combining useful heat comfort, electric driver-seat memory, three-zone climate control, ambient lighting and a panoramic roof environment.

Exterior & Design

The exterior specification gives this Leon Sportstourer a restrained but sporty FR character, with black rails, sport bumpers, privacy glass, rear spoiler, LED visual signatures and 18-inch Performance alloys.

8 N 6 8 Q 3 8 S 4 8 T B 8 V M 8 W B
8 X 6 9 I 5 9 T 0 P X X

Performance & Running Gear

The configuration combines a 1.5TSI mild-hybrid powertrain, 7-speed automatic transmission, front-wheel drive, XDS traction support, DCC and progressive steering for a composed FR drive.

0 A E 0 B A 0 K 4 0 N 1 1 A 5 1 E 5

2 I 0 7 L 6 8 F A 9 G 8 D 8 I + 9 m o r e

Practicality & Ownership

The estate body, variable load floor, 12V and 230V luggage-area power, temporary spare wheel, hands-free tailgate preparation and LongLife servicing make the car highly usable.

+13 more

Standout combination: DCC, progressive steering, 18-inch FR wheels, Full LED lighting, Beats Audio, three-zone Climatronic, SEAT CONNECT and practical estate packaging give this Leon a strong mix of driver appeal and family usability.

ADVICE FOR THIS EXACT CONFIGURATION

The value in this Leon sits in its mild-hybrid drivetrain, DCC hardware, driver-assistance electronics and premium comfort packages, so inspection should focus on software behaviour, suspension function and equipment operation.

Mild-hybrid checks matter

The 48V belt starter-generator and 70Ah battery support start-stop and recuperation. Smooth restart behaviour and warning-free operation are important on inspection.

DCC and progressive steering add value

This chassis package is a desirable FR upgrade. Check for even tire wear, quiet suspension operation and clear drive-mode changes.

Electronics should be verified carefully

Navigation, SEAT CONNECT, wireless charging, BeatsAudio, Full Link and the 10-inch system are central to the premium feel. Confirm pairing, audio output, maps and online functions.

Safety sensors protect resale appeal

Front Assist, Lane Assist, lane-change support, traffic sign recognition, rear camera and park steering assistant should operate without fault messages.

Estate practicality is a key selling point

The variable load floor, luggage cover, 230V outlet, temporary spare wheel and sensor-controlled tailgate make this car more useful than a basic hatchback.

Dutch-market export note

This is a left-hand-drive Netherlands-market European specification with km/h instrumentation and Dutch documentation. It is naturally suitable for most LHD European markets.

Ownership focus: SEAT Leon FR Sportstourer, 1.5TSI mild hybrid, 7-speed automatic, Full LED, panoramic roof, BeatsAudio, DCC, progressive steering and extensive driver assistance.

ALL CODES AND DESCRIPTIONS
