

# Citroën Berlingo. Your van, decoded.

VF77D9HF0BJ83XXXX

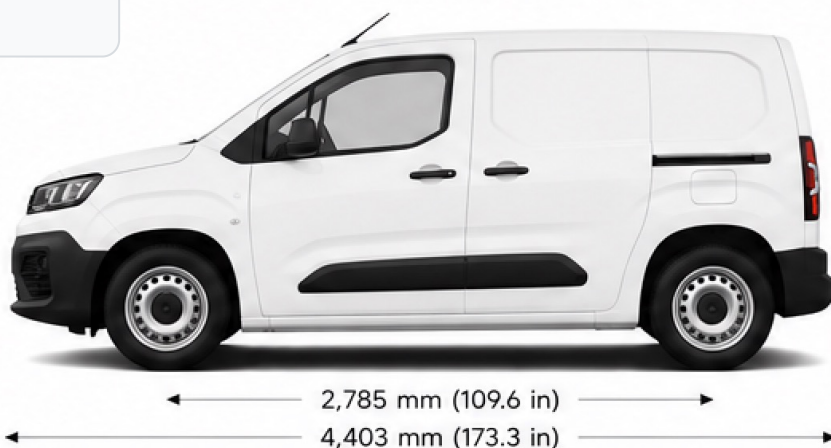

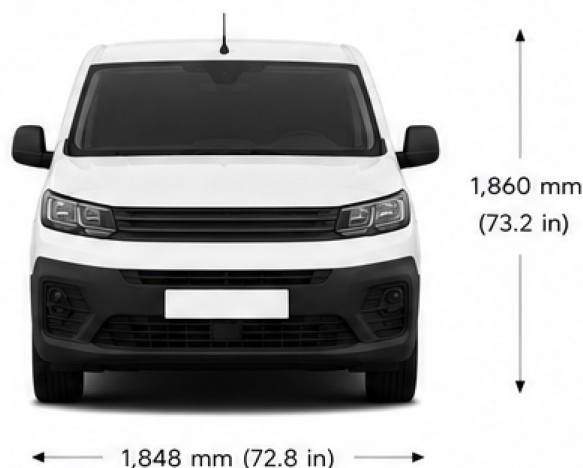

According to the available factory specification, this is a right-hand-drive Citroën Berlingo Utility Vehicle (B9) for the Great Britain market, finished in solid Banquise White. The recorded configuration combines a 1.6-litre DV6DTED turbo-diesel engine, five-speed manual transmission, 800 kg payload setup, twin solid rear doors, a left-hand sliding load door and practical Bluetooth/USB audio connectivity.

## Commercial working specification

Panel-van body, short rear overhang, 800 kg payload rating, twin rear cargo doors and a sliding side-load door.

## Efficient diesel drivetrain

DV6DTED 1.6-litre turbo-diesel, 66 kW, 215Nm, five-speed manual gearbox, Euro 5 emissions control and particulate filter.

# RECORDED SPECIFICATION

The fields below reproduce or conservatively interpret the supplied vehicle-identification data. Items not explicitly stated remain marked as such rather than being estimated.

About Citroen color codes:  
Citroen uses a 3-character paint code system.  
EWP is the code for Banquise White Paint.

# THE DEFINING FEATURES OF THIS VEHICLE

These points have been selected for their practical or ownership relevance within the recorded commercial-vehicle specification.

## DV6DTED turbo-diesel engine

The available factory information records a 1.6-litre DV6DTED turbo-diesel engine producing 66 kW and 215Nm. Its specification includes direct turbocharged injection and Euro 5 emissions control.

## Five-speed manual transmission

A BVM5 / BE4-family five-speed manual gearbox is listed. The configuration also records a gear-shift indicator intended to support economical driving.

## 800 kg payload rating

The vehicle data records an 800 kg payload setup. This is a central practical characteristic of this short-overhang Berlingo panel van.

## Twin solid rear cargo doors

The rear body is configured with two hinged metal doors and no rear glazing. This supports a work-focused cargo-area layout and added load-space privacy.

## Left-hand sliding load door

A left-side sliding cargo door is listed for kerbside access in the UK-market configuration. Physical alignment, rollers and locking operation should be independently checked.

## Rear parking assistance

The specification includes a rear obstacle-detection system. Sensor operation and warning behaviour should be verified during inspection.

## Bluetooth, USB and auxiliary audio

The recorded audio package combines Bluetooth, USB and a 3.5 mm auxiliary input with an RD4/MP3 RDS head unit. Current pairing and media functions should be tested independently.

## Automatic supplementary heating

Automatic additional heating is listed in the factory data, alongside a conventional heater-matrix and single-zone air-conditioning setup. Exact implementation and operation should be confirmed on the vehicle.

### Electrohydraulic power steering

Variable electrohydraulic steering assistance is specified. This contributes to easier low-speed manoeuvring in a compact commercial vehicle.

### 15-inch Michelin tyre package

The configuration records 195/65R15 91T tyres, Michelin branding, steel road wheels and a steel spare wheel. Tyre age, load suitability and actual fitted brand should be checked physically.

Standout combination: a compact right-hand-drive Berlingo panel van with 66 kW diesel power, five-speed manual transmission, 800 kg payload configuration, twin solid rear doors, a sliding side-load door, rear parking assistance and Bluetooth/USB connectivity.

# KEY SPECIFICATION BY CATEGORY

A customer-focused selection from the complete source data. The full appendix later in this report retains every recorded entry.

## Body, Exterior & Practicality

The recorded body specification is centred on commercial usability: a short-overhang panel-van silhouette, solid rear doors, a sliding side-load door and an 800 kg payload configuration.

| SOURCE FIELD      | INTERPRETED FEATURE                       |
|-------------------|-------------------------------------------|
| PAYLOAD           | Rated payload recorded as 800 kg.         |
| REAR MOVING PANEL | Twin rear-hinged solid metal cargo doors. |
| SIDE LOAD DOOR    | Left-hand sliding side-load door.         |
| RR OVERHANG       | Rr Overhang: SHORT REAR OVERHANG.         |

## Comfort & Interior

Cabin equipment is functional and work-oriented, with manual seat adjustment, practical storage, basic climate equipment and durable trim selections.

| SOURCE FIELD                 | INTERPRETED FEATURE                                               |
|------------------------------|-------------------------------------------------------------------|
| CABIN SEAT                   | Cabin Seat: ADJUSTABLE BENCH SEAT.                                |
| DRIVER'S SEAT HEIGHT CONTROL | Driver'S Seat Height Control: PARALLEL driver HEIGHT ADJ.         |
| FRONT PASSENGER SEAT FOLDING | Front Passenger Seat Folding: CONCEALING PASSENGER front SITTING. |
| AIR CONDITIONING             | Air Conditioning: WITH HEATER MATRIX.                             |
| ADDITIONAL HEATING           | Additional Heating: AUTOMATICADDITIONAL HEATING.                  |
| OVERHEAD STORAGE             | Overhead Storage: WITH OVERCAB COMPARTMENT.                       |
| UNDERSEAT STORAGE            | Underseat Storage: 1UNDER SEAT STORAGE DRAWER.                    |

## Factory, Market & Identification

These entries establish the vehicle identity, market, production coding, paint and trim specification. They are identification data rather than confirmation of present physical condition.

| SOURCE FIELD                     | INTERPRETED FEATURE                           |
|----------------------------------|-----------------------------------------------|
| Vehicle Identification No.       | Vehicle Identification No.: VF77D9HF0BJ83XXXX |

### Infotainment & Connectivity

The available specification records an RD4/MP3 audio platform with Bluetooth, USB, auxiliary input and a monochrome information display.

| SOURCE FIELD                | INTERPRETED FEATURE                                                      |
|-----------------------------|--------------------------------------------------------------------------|
| AUDIO PACK AUXILIARY SOCKET | Audio connectivity includes a 3.5 mm auxiliary input, USB and Bluetooth. |
| DISPLAY                     | Level C monochrome information display.                                  |
| HANDS-FREE TELEPHONE KIT    | Factory-listed hands-free telephone preparation.                         |
| RADIO RECEIVER              | RD4/MP3 RDS audio unit with compact-disc playback.                       |
| RADIO CONTROLS              | Radio Controls: REMOTE RADIO CONTROL.                                    |
| LOUDSPEAKER                 | Loudspeaker: 2 FRONT LOUDSPEAKERS.                                       |
| ON-BOARD COMPUTER           | On-Board Computer: COMPUTER.                                             |
| AERIAL                      | Aerial: SHORT ROOF AERIAL.                                               |

### Lighting & Visibility

Visibility equipment is conventional for the period, with manual lighting, front wipers, tinted glazing and a mixture of powered and heated exterior-mirror functions.

| SOURCE FIELD       | INTERPRETED FEATURE         |
|--------------------|-----------------------------|
| GLASS (APPEARANCE) | Glass (Appearance): TINTED. |

| SOURCE FIELD                            | INTERPRETED FEATURE                                                             |
|-----------------------------------------|---------------------------------------------------------------------------------|
| EXTERIOR REAR VIEW MIRROR (DRIVER SIDE) | Exterior Rear View Mirror (Driver Side): DRIVER'S DOOR MIRROR ELECTRIC CONTROL. |
| EXTERIOR REAR VIEW MIRROR (HEATED)      | Exterior Rear View Mirror (Heated): HEATED DOOR MIRROR.                         |
| EXTERIOR TEMP. INDICATOR                | Exterior-temperature display.                                                   |
| LIGHTING OF LAMPS                       | Lighting Of Lamps: MANUAL SWITCHING ON OF LIGHTS.                               |
| MISC. INT. LAMPS                        | Misc. Int. Lamps: WITH MAP READING LAMP.                                        |
| WINDSCREEN WIPER                        | Windscreen Wiper: configured front wiper blade without rain sensor.             |

### Powertrain & Emissions

The powertrain is recorded as a 1.6-litreDV6DTEd turbo-diesel with a five-speed manual gearbox,Euro 5 emissions control and diesel particulate filtration.

| SOURCE FIELD                 | INTERPRETED FEATURE                                             |
|------------------------------|-----------------------------------------------------------------|
| CAPACITY                     | Engine displacement recorded as 1,600cm <sup>3</sup> .          |
| POWER VARIATION(ENGINE)      | Engine output recorded as 66 kW and 215Nm.                      |
| GEARBOX (CHARACTERISTICS)    | BE4-5L five-speed manual gearbox.                               |
| GEARBOX TYPE                 | BE4R gearbox family.                                            |
| FUEL (TYPE)                  | Fuel (Type):DIESEL TYPE FUEL.                                   |
| FUEL TANK CAPACITY           | Fuel-tank capacity recorded as 60 litres.                       |
| EMISSIONS STANDARD(ENGINE)   | Euro 5 engine-emissions specification (L6 upper control level). |
| PARTICLE FILTER              | Diesel particulate filter recorded in the specification.        |
| INJECTION ASSOCIATED VARIANT | Injection Associated Variant: MOUNTING BOSCH.                   |
| ALTERNATOR                   | Alternator: ALTERNATOR 150AMP.                                  |

### Running Gear & Road Setup

The chassis specification uses normal suspension, 15-inchsteel wheels, variable electrohydraulic steering and an 800 kg commercial load setup.

| SOURCE FIELD         | INTERPRETED FEATURE                                  |
|----------------------|------------------------------------------------------|
| STEERING             | Variable-assistance power steering.                  |
| STEERING (OPERATION) | Electrohydraulic power-assisted steering.            |
| SUSPENSION           | Suspension: NORMAL SUSPENSION.                       |
| SUSPENSION ANDWHEELS | Suspension And Wheels: SUSPENSION AND WHEELS 800 KG. |

| SOURCE FIELD        | INTERPRETED FEATURE                                                      |
|---------------------|--------------------------------------------------------------------------|
| RIM/TYRE SIZE       | 15-inch tyre and wheel package.                                          |
| TYRE (SIZE, TYPE)   | Tyre specification: 195/65R15 91T, standard non-reinforced construction. |
| TYRE (BRAND)        | Michelin tyre brand specified.                                           |
| WHEEL (TYPE)        | Wheel (Type): STEEL WHEELS.                                              |
| FRONT ANTI-ROLL BAR | Front Anti-Roll Bar: FRONT ANTI-ROLL BAR DIAM 25.                        |

### Safety & Driver Assistance

The safety package includes ABS, a driver airbag, pyrotechnic front seatbelts and rear parking assistance, while several later-generation systems are explicitly absent.

| SOURCE FIELD                     | INTERPRETED FEATURE                                                                |
|----------------------------------|------------------------------------------------------------------------------------|
| ABS                              | Anti-lock braking system recorded in the factory specification.                    |
| DRIVER AIRBAG                    | Driver Airbag: DRIVERS AIR BAG.                                                    |
| PASSENGER AIRBAG                 | Passenger Airbag: configured no passenger airbag.                                  |
| FRONT SEATBELT                   | Front Seatbelt: PYROTECHNIC SEAT BELT WITH ALARM.                                  |
| DYNAMIC STABILITY CONTROL SYSTEM | Dynamic Stability Control System: configured without electronic stability program. |
| OBSTACLE DETECTION SYSTEM        | Rear parking-distance sensors using radar/ultrasonic obstacle detection.           |
| CHILD SEAT ANCHORING POINTS      | Child Seat Anchoring Points: configured without child seat mounting.               |
| WARNING LAMPS (TYPE)             | Warning Lamps (Type): VISUAL with AUDIBLE DRIVER'S SEAT BELT INDICATORS.           |
| BRAKE ASSOCIATED VARIANT         | Brake Associated Variant: 8 1BOSCH ABS.                                            |

# ADVICE FOR THIS EXACT CONFIGURATION

These are inspection and ownership considerations, not fault diagnoses or claims about the vehicle's current mechanical condition.

## Diesel emissions hardware

The specification lists Euro 5 emissions control and a particulate filter. Service history, warning-light status and evidence of appropriate driving cycles should be checked; the report does not confirm system condition.

## Timing-drive confirmation

The source records a DV6DTED engine and a chain-adaptation entry, but it does not provide a complete service-history statement. Confirm the exact timing-drive arrangement and documented replacement intervals against the vehicle and engine number.

## Payload and cargo use

An 800 kg payload configuration is recorded. Actual permissible masses must still be checked on the VIN plate and registration documents, especially before regular heavy loading.

## Rear-door and sliding-doorwear

Commercial-vehicle doors can experience concentrated wear. Inspect hinges, check straps, sliding rollers, latches, seals and central-locking operation under realistic use.

## Tyres and spare wheel

The factory specification lists 195/65R15 91Ttyres and a steel spare. Confirm that all fitted tyres meet the vehicle's load and speed requirements and inspect the spare-wheel retention system.

## UK-market configuration

This is recorded as a right-hand-drive Great Britain specification with mph instrumentation and left-side traffic setup. Export, registration and lighting requirements may differ in other markets.

Ownership focus:verify emissions-system history, exact timing-drive maintenance, door hardware, payload documentation, tyre suitability and the operation of all listed convenience equipment before relying on the specification.

# ALL SOURCE FIELDS AND DESCRIPTIONS

Every distinct vehicle–identification and equipment entry extracted from the supplied factory–data table is listed once below. Descriptions are rewritten for clarity while the originalfield names remain visible.

| BATTERY CHARGE<br>MEASUREMENT      | Battery Charge Measurement: WITH BATTERY CHARGE MEASUREMENT.                | Powertrain & Emissions |
| CAPACITY                           | Engine displacement recorded as 1,600cm <sup>3</sup> .                      | Powertrain & Emissions |
| COOLING MOTOR                      | Cooling Motor: RADIATOR TH : 27 – 21DM2 BRAZED ALUMINIUM.                   | Powertrain & Emissions |
| CRANKCASE GAS<br>CIRCUIT HEATING   | Crankcase Gas Circuit Heating: WITH HEATER CASING GAS CIRCUIT.              | Powertrain & Emissions |
| CYLINDER BLOCK<br>(MATERIAL)       | Cylinder Block (Material): CRANKCASE ALUMINIUM.                             | Powertrain & Emissions |
| DIFFERENTIAL<br>(GEARBOX)          | Differential (Gearbox): DIFFERENTIAL 84.                                    | Powertrain & Emissions |
| DRIVESHAFT<br>CHARACTERISTIC       | Driveshaft Characteristic: NORMAL DRIVESHAFT.                               | Powertrain & Emissions |
| EMISSIONS STANDARD<br>(ENGINE)     | Euro 5 engine–emissions specification (L6 upper control level).             | Powertrain & Emissions |
| ENGINE (TYPE)                      | Engine (Type): DV TYPE ENGINE.                                              | Powertrain & Emissions |
| ENGINE BAY<br>SOUNDPROOFING        | Engine Bay Soundproofing: configured without sound–proofing.                | Powertrain & Emissions |
| FAN                                | Fan: 1FAN 2 SPEEDS 160W.                                                    | Powertrain & Emissions |
| FINAL DRIVE RATIO                  | Final Drive Ratio: REAR AXLE HYPOID GEARSET 17X 71.                         | Powertrain & Emissions |
| FUEL                               | Fuel: DIESEL GRADE DA/DE/DEwith.                                            | Powertrain & Emissions |
| FUEL (TYPE)                        | Fuel (Type):DIESEL TYPE FUEL.                                               | Powertrain & Emissions |
| FUEL ADDITIVE                      | Fuel Additive: configured without fuel additive.                            | Powertrain & Emissions |
| FUEL ADDITIVE ADDING<br>CONTROL    | Fuel Additive Adding Control: MULTIPLEXED PUMP ADDITIVE CONTROL.            | Powertrain & Emissions |
| FUEL SUPPLY                        | Fuel Supply: DIRECT EXCHANGER TURBO INJECTION.                              | Powertrain & Emissions |
| FUEL TANK                          | Fuel Tank: FUEL TANK WITH LOCATING TAB.                                     | Powertrain & Emissions |
| FUEL TANK CAPACITY                 | Fuel–tank capacity recorded as 60 litres.                                   | Powertrain & Emissions |
| FUEL VAPOUR<br>RETRIEVAL           | Fuel Vapour Retrieval: configured without petrol vapour recuperation.       | Powertrain & Emissions |
| GEARBOX<br>(CHARACTERISTICS)       | BE4–5L five–speed manual gearbox.                                           | Powertrain & Emissions |

| SOURCE FIELD / CODE                         | DESCRIPTION                                                                                           | CATEGORY               |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------|------------------------|
| GEARBOX REINFORCEMENT                       | Gearbox Reinforcement: GEARBOX REINFORCEMENT (J).                                                     | Powertrain & Emissions |
| GEARBOX TYPE                                | BE4R gearbox family.                                                                                  | Powertrain & Emissions |
| INJECTION ASSOCIATED VARIANT                | Injection Associated Variant: MOUNTING BOSCH.                                                         | Powertrain & Emissions |
| OIL GAUGE                                   | Oil Gauge: STD OIL LEVEL INDICATOR.                                                                   | Powertrain & Emissions |
| PARTICLE FILTER                             | Diesel particulate filter recorded in the specification.                                              | Powertrain & Emissions |
| POWER VARIATION (ENGINE)                    | Engine output recorded as 66 kW and 215Nm.                                                            | Powertrain & Emissions |
| STARTER MOTOR                               | Starter Motor: STARTER MOTOR CL 4.                                                                    | Powertrain & Emissions |
| TANK FILTER                                 | Tank Filter: RESERVOIR FILTER INTERIOR.                                                               | Powertrain & Emissions |
| THROTTLE HOUSING (ENGINE INLET AIR CIRCUIT) | Throttle Housing (Engine Inlet Air Circuit): configured without throttle housing (intake air engine). | Powertrain & Emissions |
| VALVE PER CYLINDER                          | Valve Per Cylinder: 2.                                                                                | Powertrain & Emissions |
| VEHICLE TECHNICAL DEPOLLUTION               | Vehicle emissions configuration recorded to Euro 5 standard.                                          | Powertrain & Emissions |

## RUNNING GEAR & ROAD SETUP

| SOURCE FIELD / CODE               | DESCRIPTION                                                              | CATEGORY                  |
|-----------------------------------|--------------------------------------------------------------------------|---------------------------|
| BUMPER TRIM                       | Bumper Trim: configured bumper without trim.                             | Running Gear & Road Setup |
| CHAIN ADAPTATION                  | Chain Adaptation: WITH CHAIN ADAPTATION.                                 | Running Gear & Road Setup |
| DOOR TRIM                         | Door Trim: configured without lining.                                    | Running Gear & Road Setup |
| FRONT ANTI-ROLL BAR               | Front Anti-Roll Bar: FRONT ANTI-ROLLBAR DIAM 25.                         | Running Gear & Road Setup |
| INT. TRIM AND EQUIPMENT VARIATION | Int. Trim And Equipment Variation: STANDARD INTERIOR EQUIPMENT DRESSING. | Running Gear & Road Setup |
| LOAD SPACE TRIM                   | Load Space Trim: PVC BOOT CARPET.                                        | Running Gear & Road Setup |
| MUDFLAP                           | Mudflap: configured without mudguard.                                    | Running Gear & Road Setup |
| PEDAL BRACKET (TYPE)              | Pedal Bracket (Type): PEDAL STANDARD.                                    | Running Gear & Road Setup |
| REAR ANTI-ROLL BAR                | Rear Anti-Roll Bar: configured without rear anti-roll bar.               | Running Gear & Road Setup |

| SOURCE FIELD / CODE   | DESCRIPTION                                                              | CATEGORY                  |
|-----------------------|--------------------------------------------------------------------------|---------------------------|
| RIM/TYRE SIZE         | 15-inch tyre and wheel package.                                          | Running Gear & Road Setup |
| SPARE WHEEL           | Full-size steel spare wheel with a standard tyre.                        | Running Gear & Road Setup |
| SPLASH SHIELD         | Splash Shield: STANDARD MUD GUARD WITH FOAM.                             | Running Gear & Road Setup |
| STEERING              | Variable-assistance power steering.                                      | Running Gear & Road Setup |
| STEERING (OPERATION)  | Electrohydraulic power-assisted steering.                                | Running Gear & Road Setup |
| STEERING WHEEL        | Steering Wheel: RUBBER STEERING WHEEL.                                   | Running Gear & Road Setup |
| SURFACE CONDITIONS    | Surface Conditions: GOOD TERRAIN.                                        | Running Gear & Road Setup |
| SUSPENSION            | Suspension: NORMAL SUSPENSION.                                           | Running Gear & Road Setup |
| SUSPENSION AND WHEELS | Suspension And Wheels: SUSPENSION AND WHEELS 800 KG.                     | Running Gear & Road Setup |
| TRIM ADAPTATION       | Trim Adaptation: PLAST GAITER/KNOB with INSERT.                          | Running Gear & Road Setup |
| TYRE (BRAND)          | Michelin tyre brand specified.                                           | Running Gear & Road Setup |
| TYRE (QUALITY)        | Tyre (Quality): STANDARD QUALITY TYRE.                                   | Running Gear & Road Setup |
| TYRE (SIZE, TYPE)     | Tyre specification: 195/65R15 91T, standard non-reinforced construction. | Running Gear & Road Setup |
| WHEEL (TYPE)          | Wheel (Type): STEEL WHEELS.                                              | Running Gear & Road Setup |
| WHEEL STYLE           | 15-inch steel wheel design.                                              | Running Gear & Road Setup |

| SAFETY & DRIVER ASSISTANCE |                                                                 |                            |
|----------------------------|-----------------------------------------------------------------|----------------------------|

|-----------------------------------|-----------------------------------------------------------------------------------------|----------------------------|
| CHILD LOCK                        | Child Lock: configured without child lock.                                              | Safety & Driver Assistance |
| CHILD OBSERVATION INTERIOR MIRROR | Child Observation Interior Mirror: configured without interior child monitoring mirror. | Safety & Driver Assistance |
| CHILD SEAT ANCHORING POINTS       | Child Seat Anchoring Points: configured without child seat mounting.                    | Safety & Driver Assistance |
| DRIVER AIRBAG                     | Driver Airbag: DRIVERS AIR BAG.                                                         | Safety & Driver Assistance |
| DYNAMIC STABILITY CONTROL SYSTEM  | Dynamic Stability Control System: configured without electronic stability program.      | Safety & Driver Assistance |
| EMERGENCY EQUIPMENT               | Emergency Equipment: configured without help equipment.                                 | Safety & Driver Assistance |
| EMERGENCY WARNING TRIANGLE        | Emergency Warning Triangle: configured without warning triangle.                        | Safety & Driver Assistance |
| FR IMPACTS                        | Fr Impacts: UPPER.                                                                      | Safety & Driver Assistance |
| FRONT LATERAL AIRBAG              | Front Lateral Airbag: configured without front side airbag.                             | Safety & Driver Assistance |
| FRONT SEATBELT                    | Front Seatbelt: PYROTECHNIC SEAT BELT WITH ALARM.                                       | Safety & Driver Assistance |
| INFLATION PRESSURE LOSS INDICATOR | Inflation Pressure Loss Indicator: configured without tyre deflation indicator.         | Safety & Driver Assistance |
| OBSTACLE DETECTION SYSTEM         | Rear parking-distance sensors using radar/ultrasonic obstacle detection.                | Safety & Driver Assistance |
| PASSENGER AIRBAG                  | Passenger Airbag: configured no passenger airbag.                                       | Safety & Driver Assistance |
| REAR SEATBELT                     | Rear Seatbelt: configured without rear safety belt.                                     | Safety & Driver Assistance |
| SIDE IMPACTS                      | Side Impacts: configured door without reinforcement.                                    | Safety & Driver Assistance |
| SPEED MONITORING                  | Speed Monitoring: configured without speed check.                                       | Safety & Driver Assistance |
| THIRD BRAKE LAMP                  | Third Brake Lamp: WITH EYE LEVEL REAR LIGHTS.                                           | Safety & Driver Assistance |
| TRAFFIC INFORMATION READER        | Traffic Information Reader: configured without lateral trajectory monitoring.           | Safety & Driver Assistance |
| WARNING LAMPS (TYPE)              | Warning Lamps (Type): VISUAL with AUDIBLE DRIVER'S SEAT BELT INDICATORS.                | Safety & Driver Assistance |
| FACTORY, MARKET & MISCELLANEOUS   |                                                                                         |                            |

| SOURCE FIELD / CODE            | DESCRIPTION                                                                           | CATEGORY                        |
|--------------------------------|---------------------------------------------------------------------------------------|---------------------------------|
| ADDITIONAL ELECTRONIC UNIT     | Additional Electronic Unit: configured without additional electronic unit.            | Factory, Market & Miscellaneous |
| ADDITIONAL TYPE APPROVAL PLATE | Additional Type Approval Plate: configured without addit homologation plate.          | Factory, Market & Miscellaneous |
| ANTI-THEFT ALARM               | Anti-Theft Alarm: configured without theft protection alarm.                          | Factory, Market & Miscellaneous |
| ANTI-THEFT NUTS                | Anti-Theft Nuts: configured without anti-theft nuts.                                  | Factory, Market & Miscellaneous |
| ATMOSPHERIC CONDITIONS         | Atmospheric Conditions: NORMAL ATMOSPHERE.                                            | Factory, Market & Miscellaneous |
| AUTOMATIC BRAKING              | Automatic Braking: configured without emergency collision braking system.             | Factory, Market & Miscellaneous |
| CLIMATE (AMBIENT TEMP)         | Climate (Ambient Temp): TEMPERATE COUNTRIES.                                          | Factory, Market & Miscellaneous |
| CONDENSER LOCATION             | Condenser Location: STANDARD FIT CONDENSER.                                           | Factory, Market & Miscellaneous |
| COUNTRY ADAPTATION             | Country Adaptation: configured without adaptation country.                            | Factory, Market & Miscellaneous |
| CRUISE CONTROL                 | Cruise Control: configured without speed control.                                     | Factory, Market & Miscellaneous |
| DASHBOARD EQUIPMENT            | Dashboard Equipment: PAINTED VISOR BISE DECOR.                                        | Factory, Market & Miscellaneous |
| DEFINITION TO FOLLOW           | Definition To Follow: INITIALE RANGE.                                                 | Factory, Market & Miscellaneous |
| DIESEL FILTER WATER DETECTOR   | Diesel Filter Water Detector: configured without diesel filter water detector.        | Factory, Market & Miscellaneous |
| DRIVING POSITION               | Right-hand-drive configuration.                                                       | Factory, Market & Miscellaneous |
| ELECTRIC VEHICLE CHARGING PLUG | Electric Vehicle Charging Plug: configured without vehicle load recognition.          | Factory, Market & Miscellaneous |
| ENHANCED ELECTRICAL EQUIPMENT  | Enhanced Electrical Equipment: configured without electrical equipment reinforcement. | Factory, Market & Miscellaneous |
| EOBD SELF-DIAGNOSIS SYSTEM     | Eobd Self-Diagnosis System: configured "eobd" auto-diagnostic without accelerometer.  | Factory, Market & Miscellaneous |
| FITTING REAR HEAD RESTRAINT    | Fitting Rear Head Restraint: configured without rear head-rest.                       | Factory, Market & Miscellaneous |
| GEAR SHIFT INDICATOR GSI       | Gear Shift Indicator Gsi: WITH GEAR SHIFT INDICATOR GSI.                              | Factory, Market & Miscellaneous |
| HORNS                          | Horns: HORN STANDARD.                                                                 | Factory, Market & Miscellaneous |

| SOURCE FIELD / CODE                   | DESCRIPTION                                                                  | CATEGORY                        |
|---------------------------------------|------------------------------------------------------------------------------|---------------------------------|
| INDICATORS                            | Indicators: configured without signaling lights.                             | Factory, Market & Miscellaneous |
| LABEL                                 | Label: configured without label.                                             | Factory, Market & Miscellaneous |
| LATERAL BLINDS                        | Lateral Blinds: configured without side blinds.                              | Factory, Market & Miscellaneous |
| LOAD LABEL                            | Load Label: configured without load label.                                   | Factory, Market & Miscellaneous |
| LOCKING CONTROL                       | Central deadlocking with automatic drive-away locking.                       | Factory, Market & Miscellaneous |
| MARQUE                                | Marque: CITROEN.                                                             | Factory, Market & Miscellaneous |
| MODIF 4 MARK                          | Modif 4 Mark: TRW ELECTROPUMP ASSEMBLY.                                      | Factory, Market & Miscellaneous |
| OPTIMISATION OF VEHICLE'S CONSUMPTION | Optimisation Of Vehicle'S Consumption: NORMAL FUEL CONSUMPTION OPTIMISATION. | Factory, Market & Miscellaneous |
| PROGRAMME COUNTRY (ICP)               | Great Britain market configuration.                                          | Factory, Market & Miscellaneous |
| RAPID CHARGING OF THE VEHICLE         | Rapid Charging Of The Vehicle: configured without rapid vehicle charging.    | Factory, Market & Miscellaneous |
| REAR HEAD RESTRAINT                   | Rear Head Restraint: configured without rear headrest.                       | Factory, Market & Miscellaneous |
| REAR PASSENGER PROTECTION             | Rear Passenger Protection: configured without rr passenger protection.       | Factory, Market & Miscellaneous |
| REMOTE CONTROL                        | Remote Control:SEPARATE FRONT / REAR CONTROL.                                | Factory, Market & Miscellaneous |
| REPARABILITY                          | Reparability: SUPERIOR REPARABILITY.                                         | Factory, Market & Miscellaneous |
| SET OF KEYS                           | Two high-frequency remote-control keys.                                      | Factory, Market & Miscellaneous |
| SPEED GRADUATIONS                     | Speed Graduations: SPEED GRADUATIONIN MPH.                                   | Factory, Market & Miscellaneous |
| SPEEDOMETER DRIVE                     | Speedometer Drive: configuredwithout tacho torque.                           | Factory, Market & Miscellaneous |
| STOP AND START                        | Stop And Start: configuredwithout stop and start.                            | Factory, Market & Miscellaneous |
| SUPPLEMENTARY HEATER                  | Supplementary Heater: configured without additional heating.                 | Factory, Market & Miscellaneous |
| TACHOMETER                            | Tachometer: REV COUNTER WITH NEEDLE.                                         | Factory, Market & Miscellaneous |

| SOURCE FIELD / CODE       | DESCRIPTION                                                                 | CATEGORY                        |
|---------------------------|-----------------------------------------------------------------------------|---------------------------------|
| TIMER                     | Timer: configured without tachograph.                                       | Factory, Market & Miscellaneous |
| TRAFFIC SIDE              | Configured for left-side traffic.                                           | Factory, Market & Miscellaneous |
| TYPE OF MAINTENANCE       | Type Of Maintenance: NORMAL MAINTENANCE.                                    | Factory, Market & Miscellaneous |
| VEHICLE FAMILY            | Vehicle Family: BERLINGO UTILITY VEHICLE (B9).                              | Factory, Market & Miscellaneous |
| VIN PLATE                 | Vin Plate: EUROPEAN UNION CONSTRUCTOR'S PLATE with NRE.                     | Factory, Market & Miscellaneous |
| WATER DRIVING RESTRICTION | Water Driving Restriction: configured without water driving constraint.     | Factory, Market & Miscellaneous |
| WIRING PRE-ARRANGEMENT    | Wiring Pre-Arrangement: configured without factory fitted wiring provision. | Factory, Market & Miscellaneous |

# INDEPENDENT VEHICLE INFORMATION

This report is an independent informational product prepared for vehicle identification, specification review and general informational use. No rights may be derived from it. It is based on interpreted vehicle-identification and factory-specification information available at the time of preparation.

This report should not be regarded as a purchase inspection, valuation, warranty or technical diagnosis. It is not a pre-purchase inspection, physical vehicle inspection, condition report, appraisal, guarantee, statement of mechanical condition or confirmation that any listed system is present or operates correctly.

The report does not verify mileage, service history, accident history, ownership history or authenticity beyond the interpreted identifiers. Listed equipment may have been removed, replaced, modified or rendered inoperative. Actual identity, installed equipment, legal specification, condition, operation and history must be independently checked before purchase, sale, registration, repair, valuation or other reliance.

Errors, incomplete records, regional variations and production changes may occur. Some identifiers describe absence of equipment, market configuration, production differentiation, software, documentation, internal build data or regulatory compliance rather than visible optional equipment. Technical data has been interpreted, translated and reformatted without changing the intended factual meaning.

This report is not affiliated with, endorsed by, sponsored by, authorised by or produced by Citroën, Automobiles Citroën, Stellantis, any importer, dealer network or vehicle manufacturer. Citroën, Berlingo and all other trademarks, model names and proprietary marks remain the property of their respective owners.

The reader remains responsible for obtaining independent professional verification and for complying with all applicable statutory, registration, roadworthiness, tax and consumer-protection requirements. Nothing in this disclaimer is intended to remove statutory rights or exclude liability where exclusion is prohibited by law.
